

Macrame owl Dates TBD

First you will need these medal rings or even a tree branch. Both work well. These are 5" gold metal rings. You can use a 4 " or a 6" as well.

You will need macrame cotton cording. It comes in many colors and sizes.

I am recommending a 4mm macrame cotton cording. You can also use 3mm, but I think this owl is better with 4 mm

You will need (only) 3 large holed macrame beads. You can purchase in any of the craft stores or on amazon. I suggested a few from amazon, but you'll only need 3 large beads for this project. These packages from amazon contain 100 beads . I tried to find smaller packages on amazon , but the smallest ones were still 100 beads and \$7.99.

You can share with your neighbors or use beads that you already have in the house. Most likely your friends and family will love these owls and they'll ask you to make them one, so you'll end up using the beads anyway.
